

**REMARKS**

Claims 1-10 are pending in this application. By this Amendment, the specification and claims 1 and 10 have been amended.

With regard to the Election of Species Requirement, it is respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of the elected species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which is stated that "If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions." (Emphasis added). It is respectfully submitted that this policy should apply in the present application to avoid unnecessary delay and expense to Applicant and duplicative examination by the U.S. Patent and Trademark Office.

In view of the foregoing, it is respectfully submitted that claims 1-10 can be examined without undue burden on the Examiner. Accordingly, it is respectfully requested that the Election of Species Requirement be withdrawn.

Respectfully submitted,
